July 2006

## NEW DEBORAH LOMBARDI CD

Deborah Lombardi is a local singer-songwriter who is looking to take her music to the national level, as her songs have recently been featured on Animal Planet's TV show "Horse Power." Her country-tinged song "My Dog's Life" oddly enough was placed in that reality show about horses, and the song also was honored with a Runner Up award from the VH1 Song Of The Year

contest.

Deborah just released her first full-length album "On The Fringe" which is an 11 song CD featuring a full band behind this acoustic based artist. The disc stretches her sound to a variety of genres, as her acoustic guitar and piano playing are backed by guest musicians on slide guitar, mandolin, harmonica, violin as well as steady rock drums and electric guitar. The CD was co-produced by Deborah Lombardi & Doug Kwartler, another local singer-songwriter well known for his signature Americana sound.

Deborah is heavily promoting "On The Fringe" not only to local audiences, but taking it on the road to shows in Washington DC, Connecticut, Virginia and recently to the Block Island Music Festival, RI.

Song clips from the album can be heard on her website, where you can also buy the CD, at:
